

Planning for the Future

The planning for the future Padlet was developed to provide parent carers with the information they need at the click of a button.

At Carers Outreach we know that every caring situation is unique and carers' needs will vary depending on what is going on in their lives at that moment.

Planning for the future is not just about putting plans in place for an imagined future, it is about choosing to live well today so that tomorrow is also a good day for you and those you care for.

What is a padlet?

A padlet is an online information board where you can access the information you need at the click of a button.

To open the Padlet, click on the button below:
